

BIFORM

SUSTAINABLE BUILDING MATERIALS

BUILDER BROCHURE

Composite Decking

WHY INSTALL BIFORM?

1

Faster Installation.

Our hidden fixing clip system makes installation faster, easier and more efficient than traditional timber decking. This reduced labour time makes your quotes more attractive while getting on and off jobs faster.

2

Trusted & Proven.

Backed by a 25-Year Warranty, BRANZ Appraised, and trusted across New Zealand for almost two decades. Our decking won't rot, warp, twist or decay. When you choose BiForm, you're choosing confidence.

BRANZ Appraised

3

Deck Layout Design Service.

We offer a complimentary layout design service to make the quoting process easier for you. Send us a sketch or some plans and our expert design team will create a layout design specific to our product, saving you time, minimising wastage and maximising value. We will also calculate all of the decking and fixings required for the job, taking out all of the guesswork!

4

Sustainability Focussed.

BiForm decking is an environmentally responsible choice that doesn't compromise on performance or aesthetics. Made from responsibly-sourced FSC® Certified timber and recycled plastic you can rest assured that by choosing our product you are making a difference.

5

25-Year Limited Warranty.

Our composite decking expertise and the extensive testing we have done on our decking gives us confidence in offering customers a 25-yea limited warranty - one of the best in the market.

6

High Quality.

No more picking through a pile of timber looking for the good ones. Unlike timber, our BiForm composite decking boards are straight and true, making installation a breeze.You will love working with our product!

BiForm Product Range.

BiForm Decking - Form 130

130mm x 19mm x 4850mm

Our most popular profile. Form 130 can be used in all residential decking situations, and popular in commercial applications where restrictive height is an issue or minimal carbon footprint is required. Available in all five colours.

BiForm Decking - Form 140

140mm x 25mm x 4850mm

Manafactured-to-order

Form 140 can be used in residential and commercial applications such as public viewing platforms, walkways, restaurants and seating. For use where joist spacings are set at maximum 450mm. Available in five colours.

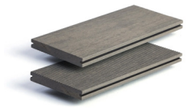

Form 130 & Form 140 Colour Options:

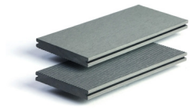

Camo Grey
Two tone grey mimics the grain of silvered timber.

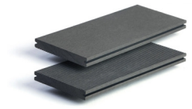

Camo Sand
A natural blend of beachy, charcoal coastal timber tones.

Camo Brown
Two tone brown mimics the grain of stained timber.

Mid Grey
A classy emulation of weathered off timber.

Charcoal
Add a sense of drama to your outdoor space.

BiForm Screening

68mm x 17mm x 3600mm

BiForm Solid Composite Screening is a low maintenance, environmentally-friendly option that can be used for carports, privacy screening, and more.

Why use BiForm Composite Screening?

- No painting or staining required
- Low-maintenance
- Won't rot or decay
- Simple Installation
- Environmentally-friendly
- Natural look

Colour Options:

Mid Grey

Charcoal

Cedar Brown

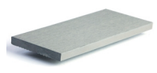

BiForm Forest Boards

138mm x 20mm x 4850mm

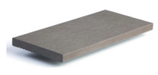

Our Forest Board range is compressed to create minimal movement and allow for surface fixing.

It has the look & feel of regular timber decking.

Colour Options:

Forest Slate

Forest Brown

Forest Coastal

BiForm Solid Composite Decking is designed with builders in mind. Our unique hidden fixing-clip system makes installation faster, easier, and more professional—saving you time on-site and eliminating the hassle of warped timber or inconsistent spacing. Each board is low maintenance, meaning fewer callbacks and happier clients long-term. Our deck layout design service takes care of all your quantities and fixings up front, reducing on-site guesswork and minimising waste. BRANZ appraised and backed by a 25-year warranty, BiForm offers the confidence and reliability you need. With over 20 years of proven performance in New Zealand conditions, it's the smart, sustainable choice for every job.

PROUD TO BE MARKET LEADERS IN

Sustainability

Sustainability is at the core of everything we do at BiForm. Our composite decking is made from recycled plastic and sustainably sourced FSC-certified wood, reducing environmental impact without compromising performance. Each board repurposes thousands of plastic bottles, helping to keep waste out of landfills.

We're proud to be Red List Free, carry a Declare label, and contribute to Green Star and Home Star credits. Our packing take-back programme further reduces waste, and our partnership with Trees That Count supports native reforestation across Aotearoa.

Choosing BiForm means building smarter - for your clients, your business, and the future of our planet.

One 40m2 BiForm Deck

=

14,063 plastic bottles recycled

+

One 10m tree worth of FSC® Certified Timber.

Why Choose BiForm?.

At BiForm, we believe in providing clear, straightforward information to help you make an informed decision. Traditional timber is no longer the obvious choice for your deck. BiForm Composite Decking offers a modern, low-maintenance alternative to timber, and is sourced ethically with enhanced durability.

Why Choose BiForm?	BIFORM	Timber
Low-maintenance	✓	✗
No need to stain or oil	✓	✗

Uniform Length	✓	✗
Hidden fixing system (FORM PROFILE)	✓	✗
Anti-fungal	✓	✗
Family safe (no splinters)	✓	✗
Fast & easy installation	✓	✗

A few extra key benefits.

Decks designed for New Zealand Conditions.

BiForm Solid Composite Decking has been specifically developed for New Zealand's harsh weather conditions. While most generic composite decking formulas consist of 50% plastic, BiForm have opted for 30% plastic content, allowing for extra durability when standing up to New Zealand's heightened UV. Less plastic means less thermal expansion and contraction.

Long lasting, low maintenance.

Our formula, combining timber and plastic, brings out the best of both elements, creating a durable decking alternative that is built to outlast and out-perform refular decking timber. No oiling, staining or painting required. Keep it clean and BiForm will reward your clients with years of low maintenance enjoyment.

Built for Every Project.

BiForm is a versatile solution trusted by professionals for both residential homes and large-scale commercial projects. Its durability, low maintenance, and sleek aesthetic make it ideal for everything from backyard decks to public boardwalks, schools, and commercial spaces—delivering long-lasting performance in any setting.
