BIFORM
SUSTAINABLE BUILDING MATERIALS

BiForm Deck Cleaner Instructions

Items Required Prior to Cleaning Deck:

- A box of BiForm Deck Cleaner, rubber gloves, and a mask to prevent breathing in the vapour.
- A deck scrub (broom like item with a firm bristle scrubber on the end).
- A 10L mixing bucket with a good pourer to mix the BiForm Deck Cleaner power with warm water.
- A mixing paddle (large wooden spoon).
- An efficient garden sprayer - at least 5 litres to spray on the BiForm Deck Cleaner.
- A hose for rinsing off. • Some old towels for sweeping off water.
- A large piece of cardboard or another barrier to protect the house while spraying.

Directions:

1. Apply to a dry surface - so choose a day without rain, but not so warm that the cleaner dries out quickly.
2. Mix the BiForm Deck Cleaner with warm to hot water (40 degrees C) - 120mls - 1/2 cup to 7 litres of water.
3. Stir until dissolved - approximately 5 minutes.
4. Apply to the dry deck with a garden sprayer in small sections - 3m x 3m. Allow each area to sit for 30 minutes. Do not allow the deck to dry out in this time.
5. Avoid spraying walls of the house or other adjacent structures. Use a cardboard barrier if necessary.
6. After 30 minutes, scrub the deck, adding more cleaner as required.
7. Hose off.
8. Dry off each area as you go, by wrapping a towel around the deck scrub and sweeping the water off. This allows the deck to dry without patches.

Mould.

If your deck has shown signs of mould, or if you think the site may be prone to mould, please follow up the above cleaning regime with a 6 monthly spraying of the deck with 30 seconds Outdoor cleaner (Blue Label).

First Aid Information.

- On Skin - Wash with soap and water, and rinse thoroughly. • In Eyes - Rinse with fresh water for several minutes.
- If Swallowed - Do not induce vomiting, rinse mouth with copious amounts of fresh water.
- If Inhaled - Relocate to fresh air and rest in an upright position that is comfortable for breathing. Seek Medical Attention if Symptoms Persist - Call your Doctor or National Poisons Centre (0800 764 766) - Product is Sodium Percarbonate.

Precautions:

- Wear gloves and eye protection when mixing and spraying
- Wash hand or effected skin after handling • Keep away from heat, and open flames
- No smoking
- Store dry and away from combustible materials - may intensify fire
- Avoid release into the environment
- Do not spray around fishponds or streams
- In case of Fire - Use water to extinguish
