

NEW PRODUCT

BiForm Composite Sheds

Built for Storage. Designed for More.

BiForm Composite Sheds are designed for more than storage. With a modern graphite and white finish, durable WPC composite wall panels and a powder-coated aluminium frame, they offer a stylish, low-maintenance solution for outdoor living. Use yours as a garden shed, outdoor office, creative studio, man-cave, she-shed or practical extra storage space.

Built for New Zealand conditions and designed to perform without the ongoing upkeep of traditional materials, it's a smart way to add flexible, functional space to your home.

Comes as a kitset, assembly required. Doesn't include floor.
